

A cyclist is riding a road bike on a paved road that curves through a field of tall, golden grass. The sun is low in the sky, creating a warm, golden glow and long shadows on the road. The background shows rolling hills and a clear sky with some light clouds.

xSuite Business Solutions Cube 5.2

Our SAP-integrated product family xSuite Cube is an intuitive, high-performance solution package that automates and optimizes your business processes. The digital workflows for Purchasing, Accounts Payable, and Order Management offer unique functions for improving efficiency. With access via Fiori apps, SAP GUI or the xSuite web client, the solutions offer each employee great usability.

Key Features complementing SAP Solutions

- Automatic data extraction with SAP-integrated validation
- Business process automation in SAP S/4HANA, SAP S/4HANA Cloud, and SAP ERP
- Integrated cross-solution agent determination
- Universal access via SAP Fiori, SAP GUI, xSuite Web

Customer Benefits

- Boosts interdepartmental collaboration
- Mature product with broad range of functions
- Transparency across all processes
- User-friendly GUIs

An aerial photograph of a dense forest. The trees are in various stages of autumn, with some showing vibrant yellow and orange foliage, while others remain dark green. A thick layer of white mist or fog rises from the forest floor, partially obscuring the trees and creating a soft, ethereal atmosphere. The lighting is soft, suggesting early morning or late afternoon.

"...not seeing the wood for the trees."
- Christoph Martin Wieland

SAP S/4HANA deployment models

S/4HANA Cloud Private/Extended Edition (RISE with SAP)

Cloud infrastructure -
SAP or hyperscaler

Functionality analogous
to **S/4HANA On-Prem**

Lower **TCO**
